Panasonic LED - Illumination that inspires the best in you.

Light inspires a wide range of emotions. Enriched by a century of experience and relevance, we have created lights that encompass the epic range of human feelings. Our technical expertise gives us an intuitive edge to understand your needs and make products accordingly. So here we are, with world-class LED products crafted with impeccable technical precision and unmatched style that inspire the best in you. May this illumination inspire you, today and always.

Safety for generations
- Surge protection
- Wide voltage range
- Fire resistance

Comfort for generations
- Low glare
- Uniform lighting

Long life for generations
- Consistent light output
- Better heat dissipation
Uniform Lighting
Panasonic LEDs have a uniform arrangement of LEDs and use a wide diffuser to ensure uniform lighting.

Low Glare
Glare can lead to discomfort. That’s why Panasonic LEDs have a high quality diffuser and smart design for glareless lighting, making them best suited for the home.

Consistent Light Output
With the UV-Stabilised Polycarbonate Diffuser, light output remains the same for a long time, which also prevents the diffuser from yellowing.

Better Heat Dissipation
High quality housing and design leads to better heat management and maintains the initial brightness up to 50,000 burning hours.

Heat is drawn away from the light module towards the heat sink, where it dissipates from the fixture.

Safety

Surge Protection
A Panasonic LED’s driver has a surge voltage resistance up to 2.5 kV, which protects the light against strong thunderstorms.

Fire Resistance
Panasonic LEDs use a Class V0 polycarbonate material which does not catch fire. This ensures that the fire does not spread to the other electrical equipments during short circuits.

Long Life

Consistent Light Output
With the UV-Stabilised Polycarbonate Diffuser, light output remains the same for a long time, which also prevents the diffuser from yellowing.

Better Heat Dissipation
High quality housing and design leads to better heat management and maintains the initial brightness up to 50,000 burning hours.

Heat is drawn away from the light module towards the heat sink, where it dissipates from the fixture.

Wide Voltage Range
Wide input voltage range (80-400V)*
*LED Bulb (100-320W)
Voltage fluctuations are common in most places in India, so Panasonic LEDs have a wide operating voltage range.

Surge Protection
A Panasonic LED’s driver has a surge voltage resistance up to 2.5 kV, which protects the light against strong thunderstorms.

**Ignitos Modan LED Step Panel Light**

Slim circular type LED Panel with die-cast aluminium housing and smooth powder coated finish with anti-glare UV stabilized diffuser and separate energy efficient electronic driver.

- **Input Voltage:** AC 220-240V, 50/60Hz
- **Driver Type:** Non-Integral
- **P.F ≥ 0.9**
- **Voltage Operating Range:** 100-300 VAC
- **High Surge Protection:** 2.5 KV
- **CRI:** Ra>80
- **LED Life:** 30,000 B.H.
- **Optics:** Polycarbonate diffuser

**Application areas**
- Small Offices
- General Shops
- Reception Area
- Hospital Lobbies & Passages
- Restaurants

We all live for moments that enrich us. So we have made lights that enrich those moments with beauty, harmony and safety.
Lumor Modan LED Down Light

- New recessed circular type LED Down Light with die-cast aluminium housing & smooth powder coated finish with anti-glare UV stabilized diffuser & separate energy efficient electronic driver.

- Input Voltage: AC 220-240V, 50/60Hz
- Driver Type: Integral
- P.F ≥ 0.5 for 5W & 8W, P.F ≥ 0.9 for 12W
- Voltage Operating Range: 90-295 VAC
- High Surge Protection: 2.5 KV
- CRI: Ra>80
- LED Life: 30,000 B H
- Optics: Polycarbonate diffuser

Application areas:
- Small Offices
- General Shops
- Reception Area
- Hospitals
- Lobbies & Passages

Lumor Anora LED Down Light

- New recessed circular type LED Down Light with die-cast aluminium housing & smooth powder coated finish with anti-glare UV stabilized diffuser & separate energy efficient electronic driver.

- Input Voltage: AC 220-240V, 50/60Hz
- Driver Type: Integral
- P.F ≥ 0.9
- Voltage Operating Range: 100-300 VAC
- High Surge Protection: 2.5 KV
- CRI: Ra>70
- LED Life: 30,000 B H
- Optics: Polycarbonate diffuser

Application areas:
- Small Offices
- General Shops
- Reception Area
- Hospitals
- Lobbies & Passages
- Restaurants
- Homes

24w High Wattage Battens
Oval-shaped decorative ultra slim square profile LED lighting fixture with extruded polycarbonate, environmental friendly, energy efficient for higher illumination purpose

- Input Voltage: AC 220-240V, 50/60Hz
- Driver Type: Integral
- P.F ≥ 0.9
- Voltage Operating Range: 90-305VAC
- High Surge Protection: 2.5kV
- CRI: Ra> 80
- LED Life: 30,000 BH
- Optics: Polycarbonate diffuser

Application areas: Corridors, Living Room, Shops, Staircase, Offices, Storage Room

24w High Wattage Battens
Surface mounted LED batten equipped with microwave technology for providing energy efficient solution.
The Radar Sensor LED Batten saves energy and also provides safe passage for people and objects in areas with dim lights.

- Input Voltage: AC 220-240V, 50Hz
- Driver Type: Integral
- P.F ≥ 0.9
- Voltage Operating Range: 100-300V
- High Surge Protection: 2.5kV
- CRI: Ra> 80
- LED Life: 30,000 BH
- Optics: Polycarbonate diffuser
- Sensor Range: 180 degree, height 7mtr max
- Induction delay: 17sec

Application areas: Warehouse, Staircase, Parking lot, Elevator, Corridors

Radar Sensor LED Batten

- 100% brightness when object is moving in sensor range
- 80% brightness when no object/movement is in sensor range

Cut Out Dimension (mm): 1210 x 36 x 25
Illuminate your communities with lights that inspire safety.
# LED Street Light

LED Street Light is perfect for secondary roads and pathways. It sports a compact body, which offers a highly efficient lighting solution as compared to fluorescent and CFL street lights. This is a versatile street light that can be used in various other outdoor applications. Specially designed cover with prismatic optics to spread light and reduce direct glare.

### Specifications
- **Input Voltage:** AC 220-240V, 50/60Hz
- **Driver Type:** Constant current, Integral
- **PF ≥ 0.9**
- **Voltage Operating Range:** 100-400 V
- **High Surge Protection:** 4 KV
- **CRI:** Ra > 80
- **LED Life:** 50,000 B H
- **Optics:** Polycarbonate diffuser
- **Recommended Height of the Pole:** 3.5mtr
- **Recommended Pipe Outer Diameter:** 30-35mm

### Application areas
- Gardens
- Street Light Pathways
- Residential Buildings Compound Lighting

Your establishments are a reflection of your achievements. They deserve lights which inspire aspirations.
LED Flood Light

LED Flood Light is a high quality, water-proof (IP65 rated) flood light which has the following benefits over conventional floodlights:

- Massive 85% energy saving compared to existing halogen floodlights.
- Durable and effective heat dissipation designed for a long life of more than 30,000 hour lifetime.

Ideal for car-parks, gardens, landscaping and commercial use, as well as security lighting, facade lighting and more.

Input Voltage: AC 220-240V, 50/60Hz
Voltage operating range: 90-330VAC
High Surge Protection: 3KV
LED Life: 30,000 B H
